

ERS Summer School in paediatric respiratory medicine

12–15 June, 2019

Barcelona, Spain

The ERS summer school in paediatric respiratory medicine provides an opportunity for all respiratory professionals to update their knowledge against European standards, or to prepare for the [2019 ERS HERMES examinations](#). Lectures, workshops and case-based discussions will focus on:

- Acute and chronic respiratory infections
- Airway endoscopy
- Bronchial asthma and wheezing disorders
- Chronic respiratory failure
- Congenital malformations
- Cystic fibrosis
- Evaluation of respiratory signs and symptoms
- Lung function testing
- Lung imaging
- Rare diseases and lung transplantation
- Sleep medicine
- Technology dependent children
- Tuberculosis

Key deadlines:

- Bursary application: 24 February, 2019
- Early-bird registration: 1 April, 2019

Participants on the paediatric summer school can register to attend the [ERS HERMES self-assessment course](#) for a reduced fee of €50, which will also take place in Barcelona on 15 June, 2019.

Organising committee: Ernst Eber, Monika Gappa and Fabio Midulla
