

Overview

The ERS Lung Science Conference is at the forefront of basic and translational respiratory science and is an essential event for budding respiratory researchers looking to boost their career.

It offers a unique opportunity to network with peers from across the globe and will present cutting-edge abstracts on novel experimental lung research.

This year's LSC will be a hybrid event, with both online and onsite attendance possible.

Key information

Theme: Post-viral lung diseases – from basic immunology to clinical phenotypes and therapy.

Venue: Estoril, Portugal / Online

Event date: 9–12 March, 2023

Event hashtag: #LSC2023
